Session 2: Measuring health-related quality of life and use of clinical outcomes Led by:	74 minutes	
Session 3: Collecting and valuing relevant cost data in clinical trials Led by:	57 minutes	
DAY TWO	Pre-recorded Lectures & Exercises Timings (approx)	Live Q&A Sessions Timings
Session 3: Economic evaluation, modelling and uncertainty Led by:	57 minutes	*2-3.30pm
Session 4: Economic evaluation in practice, examples and funding Led by:	42 minutes	
Session 4: Final Q&A Led by:		

*All timings will be either UK GMT or BST dependant on time of year and may be subject to change

For each of the 5 sessions, the Q & A session will begin by discussing your answers to the practical exercises that were set at the end of each session, followed by general questions relating to that session.

We strongly recommend working through the online lectures and exercises in advance and identifying any questions you may have, so that you get the most out of the live sessions.
