

Health Economics Research Centre
HERC Short Courses

Health Economics Research Centre, University of Oxford
Integrating Economic Evaluation into Clinical Trials course

COURSE PROGRAMME

DAY ONE

	Pre-recorded Lectures & Exercises Timings (approx)	Live Q&A Sessions Timings
Session 1: Introduction to key health economic concepts	45 minutes	*10.30am – 12 noon
Session 2: Measuring health-related quality of life and use of clinical outcomes	74 minutes	
Session 3: Collecting and valuing relevant cost data in clinical trials	57 minutes	

DAY TWO

	Pre-recorded Lectures & Exercises Timings (approx)	Live Q&A Sessions Timings
Session 3: Economic evaluation, modelling and uncertainty	57 minutes	*10.30am – 12 noon
Session 4: Economic evaluation in practice, examples and funding	42 minutes	
Session 4: Final Q&A		

*All timings are UK BST/GMT dependent on time of year

For each of the 5 sessions, the Q & A session will begin by discussing your answers to the practical exercises that were set at the end of each session, followed by general questions relating to that session.

We strongly recommend working through the online lectures and exercises in advance and identifying any questions you may have, so that you get the most out of the live sessions.
