

Presentations by members of HERC in 2018

11 January 2018

Nuffield Department of Population Health, Medical Sciences Division Annual Symposium
Saïd Business School, University of Oxford

[Presentations by HERC researchers](#)

31 January 2018

International Genomics Festival, London

Sarah Wordsworth: *Reimbursing next generation sequencing technologies.*

6 February 2018

Precision Medicine Network Meeting, Banff, Canada

Sarah Wordsworth: *A discussion of precision medicine and value of information analysis.*

14 February 2018

IPECAD ROADMAP Workshop on Modelling the economic value of Alzheimer's disease interventions: How far have we come, what next? – International Pharmaco-Economic Conference on Alzheimer's Disease, Paris

Alastair Gray: *Presentation of the ROADMAP project*

Filipa Landeiro: *Resources used and costs incurred by people with dementia and their caregivers. Quality of life of people with dementia*

26 February 2018

Oxford NIHR BRC Obesity Networking Event

Seamus Kent: *Healthcare utilisation and costs in relation to body mass index in middle-aged and older women in England*

8-9 March 2018

Annual Scientific Conference of the NIHR Health Protection Research Unit in Gastrointestinal Infections, Norwich

Mara Violato: *The Economics of Gastrointestinal Infections: Ways Forward and New Initiatives.*

Poster Presentation: *Family income and exposure to norovirus in childhood: findings from the UK Millennium Cohort Study.* Authors of the research referenced in the poster: **M. Violato**, D. Taylor-Robinson, D. Hungerford, **A. Gray**, S. O'Brien, M. Iturriza-Gomara

21 March 2018

PHE Public Health Research and Science Conference 2018, University of Warwick

Laurence Roope: *Reducing expectations for antibiotics in primary care: testing the provision of different types of information*

21 March 2018

University of Cantabria, Santander

Filipa Landeiro: *The challenges of collecting patient level data for observational studies*

23 March 2018

University of Cantabria, Santander

Filipa Landeiro: *The impact of social isolation of older patients on delayed hospital discharges*

05 April 2018

2nd Annual EURACAN Conference “Sustainability and Innovation in Rare Cancer Management”, Oxford

Apostolos Tsiachristas: *Cost-effectiveness of healthcare interventions for rare cancers: evidence from a systematic literature review and meta-analysis*

07 April 2018

One Million Genomes: From Discovery to Health Symposia, Hannover

Brett Doble:(as a consequence of being awarded a National Human Genome Research Institute Scholarship Brett presented): *Results from an analysis of HES data from rare disease patients enrolled in the 100k Genomes Project*

11 May 2018

Kenya Medical Research Institute - Wellcome Trust

Apostolos Tsiachristas: *Task-sharing in neonatal nursing care*

11-13 April 2018

European Causal Inference meeting EUROCIM, University of Florence

Joel Smith (Alastair Gray: Co-author): Poster Presentation: *From Average Treatment Effects to the Identification of Treatment Responders*

16 May 2018

European Congress of the International Federation for Surgery and Metabolic Disorders, Athens

Results of a micro-costing of the different approaches to bariatric surgery.

16 -18 May 2018

European Stroke Organisation Conference (ESOC) 2018, Gothenburg

Ramón Luengo-Fernandez: *Healthcare resource use and costs associated with bleeding on long-term antiplatelet treatment in secondary prevention after vascular events: population-based cohort study*

19 June 2018

3rd Personalised Medicine, Ethics and the Market Conference; Resource Allocation in Personalised Medicine: Evaluation, Translation & Ethics, Tsuzuki Lecture Theatre, St. Anne's College, Oxford

For this conference HERC, represented by **Sarah Wordsworth** and **James Buchanan**, joins the founding partners; the Centre for Personalised Medicine and Ethox, as a co-collaborator.

11-14 July 2018

EuHEA 2018 conference; Shaping the Future: the Role of Health Economics, Maastricht, The Netherlands

Apostolos Tsiachristas: *Cost-effectiveness of healthcare interventions for rare cancers: evidence from a systematic literature review and meta-analysis*

11-14 July 2018

EuHEA 2018 conference; Shaping the Future: the Role of Health Economics

Boby Mihaylova is part of a committee involved in organisation of a session entitled: *Will Health Economics Analysis Plans (HEAPs) improve the quality of economic evaluations alongside RCTs? A discussion of the content and application of HEAP templates.* Discussion group: University of Bristol (Joanna C Thorn, William Hollingworth, Sian M Noble, Charlotte F Davies, Sara T Brookes), Bangor University (Dyfrig Hughes, Colin Ridyard), University of Oxford (Sarah Wordsworth, Borislava Mihaylova, Melina Dritsaki), University of Cambridge (Ed Wilson), University of Warwick (Stavros Petrou), Queen Mary University of London (Vladislav Berdunov, Borislava Mihaylova)

July 2018

Ramón Luengo-Fernandez: *Temporal trends (2002-2012) in long-term outcome and quality-adjusted life-expectancy after incident stroke in Oxfordshire, UK: evidence of impact of acute stroke care at the population-level.*

29-31 August 2018

UK-China Workshop on the Economic Analysis of Large Medical Databases, University of Peking

Seamus Kent presented *Understanding patterns of healthcare utilisation and expenditure.*

25 September 2018

MSc Teachers/Tutors Training Workshop, University of Oxford

Mara Violato *Planning for consolidation sessions.*

October 2018

Presentations at the 9th Mount Hood Challenge *The Mount Hood Diabetes Challenge Network*, Düsseldorf, Germany (Hosted by researchers from the German Diabetes Centre (Deutsches Diabetes-Zentrum))

Philip Clarke *Growing old gracefully? The QALY at 50 The event rate and costs associated with major complications of diabetes in China: a comparative analysis.*

José Leal *Pre-diabetes model using Chinese data Challenge 2: UKPDS Outcomes Model.*

Mi Jun Keng *Impact of variation in type 2 diabetes management on health outcomes and healthcare costs.*

Joel Smith *Identifying those who benefit from treatment: an open challenge for diabetes economic models.*

Iryna Schlackow *Challenge 3: SHARP CKD-CVD model.*

October 2018

World Health Stroke Congress 2018, Montreal, Canada

Ramón Luengo-Fernandez: *Temporal trends (2002-2012) in long-term outcome and quality-adjusted life-expectancy after incident stroke in Oxfordshire, UK: evidence of impact of acute stroke care at the population-level.*

27 November 2018

Newcastle University

Seamus Kent: *Total diet replacement as a scalable population approach to tackling obesity*

27 November 2018

Health Economics & Evidence Synthesis (HEES) Group, the Institute of Health & Society,
Newcastle University

Seamus Kent: *Food on prescription, should total diet replacement programmes be provided by the NHS?*

28 November 2018

Newcastle University

Laurence Roope: *Gravitational Allocation Problems (authored by himself and Joel Smith)*
