

PRESENTATIONS IN 2022

January 2022

Health Economics Study Group (HESG) Winter 2021, The London School of Hygiene & Tropical Medicine

- **John Buckell:** *Decision field theory: a new paradigm for understanding health-based choice behaviour*
- **Helen Dakin:** *Using QALYs as a measure of global prediction accuracy in diabetes models*
- **Fiorella Parra Mujica:** *Who shall live in the age of COVID-19?*
- **Murong Yang:** *Child mental health and income gradient from early childhood to adolescence: Evidence from the UK*

PRESENTATIONS IN 2021

November 2021

Virtual ISPOR Europe 2021

- **Ed Penington:** *The early impact of the COVID-19 pandemic on patients with severe mental illness: An interrupted time series study in South-East England*
- **Sarah Wordsworth:** *Case Study 3 – DPYD Genotyping*
- **Junwen Zhou:** *Excess Annual Hospital Costs Due to Cardiovascular Events in a Contemporary UK Population to Inform Health Technology Assessments*

November 2021

22nd Annual Multidisciplinary Research Conference: COVID-19, Lessons Learned & Future Planning, Research & Education Foundation, Sligo University Hospital

Laurence Roope and Junwen Zhou: *Global public opinion on covid-19 vaccine allocation, donations, mandates and pandemic preparedness: Evidence from the CANDOUR study*

October 2021

Richard Doll Seminar, Nuffield Department of Population Health, University of Oxford
Philip Clarke, Laurence Roope & Mara Violato: *How does the public think COVID-19 vaccines should be allocated? Insights from the COVID-19 Vaccine Preference and Opinion Survey (CANDOUR) study*

September 2021

Oxford BRC Virtual Symposium – “Tackling COVID-19 together: Building a multi-disciplinary approach to help vaccinate the world”

- **Mara Violato:** *COVID-19's hidden cost: Evidence from the CANDOUR study on global mental health*
- **Koen Pouwels:** *How long do vaccines confer immunity?*
- **Laurence Roope:** *Global public opinion on vaccine donations, mandates and pandemic preparedness: Evidence from the CANDOUR study*

July 2021

International Health Economics Association (iHEA) Congress

- **James Buchanan:** *Costing the Diagnostic Odyssey of Patients with Rare Diseases in England: A Retrospective Analysis* [Oral]
- **John Buckell:** *Costing rare diseases in large-scale, national initiatives: new evidence from the 100,000 Genomes Project in England* [Oral]
- *Harm reduction for smokers who do not want to quit: can we use tobacco policies to encourage switching to e-cigarettes?* [Oral]
- **Philip Clarke:** *What Has Been the Impact of COVID-19 Pandemic on Health Inequalities? Findings from the COVID-19 Vaccine Preference and Opinion Survey (CANDOUR) Study* [Oral]
- **Patrick Fahr:** *Challenges of performing economic evaluations of genome sequencing in rare diseases – two case studies from the Genomics England 100,000 Genomes Project* [Oral]
- **Filipa Landeiro:** *Acute Care Costs and Lost Earnings Associated with the COVID-19 Outbreak across Europe* [Oral]
- **Muriel Levy:** *Impact of health insurance coverage on choice of hospital tier for stroke and ischaemic heart disease in China* [e-poster]
- **Matthew Little:** *Quality of Life of Patients with Atrial Fibrillation* [Oral]
- **Laurence Roope:** *Measuring the option value of capacity to tackle future crises: Evidence from the COVID 19 Pandemic* [e-poster]
- *Quantifying the Current and Future Consequences of Antimicrobial Resistance: Addressing Evidence Gaps* [Discussant]
- **Murong Yang:** *Child Mental Health and Income Gradient from Early Childhood to Adolescence: Evidence from the UK* [e-poster]

June 2021

Oxford Centre for Haematology Annual Meeting 2021

Elizabeth Stokes: *Health Economics and Economic Evaluation*

May 2021

University College London European Clinical Research Infrastructure Network (ECRIN) - International Clinical Trials Day annual symposium

Liz Morrell: *The effect of platform trials on the research team*

May 2021

Universidade de Coimbra

Filipa Landeiro: *Healthcare costs and productivity losses during the first wave of the COVID-19 pandemic in Portugal*

April 2021

17th H3Africa Consortium Meeting

James Buchanan: *Translating genome and exome sequencing into clinical practice in Africa: a health economics perspective (watch this presentation [here](#))*

April 2021

ID Epi Seminar Series, Harvard

Koen Pouwels: *Improving our use of existing antimicrobial resistance data and generating better data on optimal antibiotic duration by improving trial design in veterinary and human medicine*

March 2021

University College London

James Buchanan: *Discrete choice experiments: a primer on design, data collection and analysis*

January 2021

HESG Winter 2021: The London School of Hygiene & Tropical Medicine

John Buckell: Health-Related Quality of Life and BMI: An IPD Meta-Analysis of Randomized Controlled Trials

Helen Dakin: Resource allocation under multiple constraints: Extensions of existing decision support tools
