

# Resource Allocation in Personalised Medicine: Evaluation, Translation & Ethics

19th June 2018 • Tsuzuki Lecture Theatre • St Anne's College • Oxford

## Conference Programme

8:30 – 9:15	Registration & tea/coffee  Welcome by Simon Leedham
9:15 – 10:15	Ellen Graham <i>NHS England: The changing landscape of commissioning genomics healthcare services in the UK (TBC)</i>
10:15 – 11:00	Dean Regier <i>Allocating resources to genomic testing in Canada: current challenges and latest evidence</i>
11:00 – 11:30	Tea/coffee break
11:30 – 12:00	<b>Health Economics</b> Sarah Wordsworth & James Buchanan <i>Translating genomic tests into clinical practice in the UK NHS: is the health economics evidence base there yet?</i>
12:00 – 12:30	Katherine Payne TBC
12:30 – 13:00	Catherine Lejeune <i>Valuing genetic and genomic testing in France: current challenges and latest evidence</i>
13:00 – 14:00	Lunch
14:00 – 14:45	<b>Ethics and the Patient Perspective</b> Christian Munthe <i>Ethics of allocation in translational genomic medicine (TBC)</i>
14:45 – 15:15	Jayne Spink <i>The role of patients in resource allocation decision making in genomic medicine</i>
15:15 – 15:45	Tea/coffee break
15:45 – 16:15	<b>Policy</b> Nick Fahy <i>Policies for translation of genomic medicine in the European Context (TBC)</i> <i>Médecine France Génomique 2025: Developing genomic medicine in France</i>
16:15 – 16:45	Tom Fowler <i>The 100,000 Genomes Project: Building a genomics service within the NHS (TBC)</i>
16:45 – 17:15	Inês Amado <i>(Title TBC)</i>
17:15 – 17:30	General discussion and close of the conference
